OKLAHOMA FRUIT CROP

Board of Agriculture Reports No Damage from Cold Snap

Oklahoma City, March 23.—In the opinion of the State Board of Agriculture, the last cold snap has not injured the Oklahoma fruit crop. Buds had not made their appearance in sufficient quantities for the ice to do harm it is believed. However, little information comes from the Eastern counties.

According to Judge M. E. Rooser of the Supreme Court Commission, Eastern Oklahoma fruit growers do not fear March weather.

"Whether it is tradition or not, fruit in Indian Territory has never been known to suffer from March weather," said Judge Rooser. "The old settlers hold to the opinion that it is always severe weather in February or April that kills fruit in that section, and I am betting on this rule."

HEAVY STORM SWEEPS WEST

DEATH, WRECK AND RUIN IN WAKE OF WILD STORM IN MIDDLE WEST.

Chicago, March 23.—A terrific windstorm, causing widespread damage and loss of life and practically wrecking the already demoralized telegraph service, raged over the central west and middle states late over a single long distance telephone. Illinois, Iowa and Indiana indicate heavy damage, but owing to the wrecking of telegraph lines, reports are fragmentary and lacking in detail.

Omaha, Berlin, Ashland and Yutan, Nebraska—the latter towns near Omaha—Marshalltown, Ackley, Woodbine and Carroll, Iowa; Terre Haute, Indiana, and Abilene, Kansas, are places from which scattering messages carrying the news of grave destruction have been received. The death list at Yutan was placed at 5 and the injured at 50. A dispatch from Lincoln says at least thirty persons were killed, in eastern Nebraska 10 are missing and more than a hundred were injured.

For more than four hours no word was received from the stricken city of Omaha. Late bulletins report that half the city was swept by a tornado. All wires were down and Berlin a neighboring town, was said to be in flames. The message was received

over a single long distance telephone wire, which worked at intervals.

Terre Haute, Indiana, suffered severely. Scores of persons were injured, an unknown number were overwhelmed in the ruins of houses blown down by the wind and many fires were started in different parts of the city.

First reports from Nebraska were that the towns visited by the storms had been wiped out and that the wreckage was on fire. Trains loaded with rescuers, nurses and physicians were struggling toward the scenes, being compelled to feel their way without running orders, owing to paralysis of the telegraph service.

The loss of life and property in Iowa was less severe, according to messages from the swept district. Dust storms, rain, hail and tremendous electrical disturbances prevailed over Kansas and Nebraska the greater part of the day. Where railroad service was impossible, motor cars were pressed into service and surgeons and supplies were rushed to the wrecked towns at the best speed possible over the wash-out roads.

WILL COUNT OUR MONEY

GREATEST TASK OF ITS KIND occasioned BY CHANGE IN OFFICE OF TREASURER.

Washington, March 23.—The greatest count of money and securities in the history of the world will begin at the Treasury Department on April 1 when John Burke, former Governor of North Dakota, takes the oath of office as treasurer of the United States, succeeding Carmi A. Thompson.

To safeguard the Nation's wealth, Uncle Sam requires that the retiring

ing treasurer's record of the transfer of funds be verified by a count of the notes, coins and securities in the treasury. Secretary McAdoo will appoint a committee to take charge of the vaults and each vault and safe will be sealed on April 1 in preparation for the count. Only enough money to keep the wheels of Government revolving will be laid aside for daily use while the counting is in progress. It generally requires from two to four months to make the count. A government mathematician has figured out that it would take one person 300 years to verify Mr. Thompson's records. Ordinarily, every note, bond and other security is counted.

Unless a shortage or error is discovered the gold and silver, stored in bags, containing \$1,000 each, usually is weighed, a test bag being balanced against all others for verification. Armed guards stand over the counters and workmen to protect them from interference.

Losses seldom have been found in these counts. When the treasurer was changed some years ago, \$600 was stolen during the official count. A laborer engaged to lift the heavy bags of coin substituted leaden disks for silver dollars in several bags, necessitating a five months' count of every dollar of the \$115,000,000 in the big silver vault. The laborer was convicted of the theft and the retiring treasurer relieved by congress of responsibility for the loss.

When Carmi Thompson succeeded Lee McClung as Treasurer he received over \$1,400,000,000. He must account for every cent of that amount plus the millions he has since received, minus expenditures.

While the treasurer of the United States handles no money personally, he is the only bonded official in his office. His bond covers every subordinate and for many years treasurers have urged congress to order the bonding of employees who actually handle the \$6,000,000,000 which passes through the treasurer's office annually.

Rebuilt Olympic Ready for Service

Belfast, March 24.—The 45,000-ton Olympic, which still has the distinction of being the largest steamship afloat, left today for Southampton to get ready to sail for New York a week from Wednesday. For nearly four months the giant vessel has been in drydock at Harland and Wolff's shipyard, undergoing alterations designed to make her the safest ship in the world. At an expense of more than \$1,500,000 the vessel has been fitted with an inner hull to make her, as far as engineering skill can, unsinkable. The original double bottom of the ship has been extended upward, to a point well above the water line, thus furnishing an interior skin of solid steel and forming a hull within a hull, so that the Olympic is now described as two ships in one. In the opinion of the engineering experts the Olympic could now pass safely through such an accident as befell her sister ship, the ill-fated Titanic, since the effect of running on a sunken reef or submerged iceberg would be merely to rip the outer hull.

LEE PERRY OVERHAULED

WITH CHOCTAW BEER

Sunday afternoon Chief Bolin and policeman John Rolls nabbed Lee Perry, an Indian, at 9th and Rennie, with two one-gallon jugs of Choctaw beer in his possession—at least two gallons were visible on his person, and that much or more had already been consumed, apparently. Perry was brought into headquarters and bond in the sum of \$100 made, with Ed Harrison as guarantor. He will be tried before the city court Saturday.

Homer Phelps, state secretary and treasurer of the Gobblers, returned Sunday from Chickasha.

Officers Receive Caution

Oklahoma City, Ok., March 23.—Caution has been given in an opinion by Attorney General West to officers against unwarranted seizure of intoxicating liquors under the Webb Act. Under the law liquor may be seized any time without court process where there is evidence of reason to believe the goods are to be used in violation of law, but the Attorney General says, no interference should be made with those shipments made in good faith, and the quantity comes within the legal restrictions as outlined in the Oklahoma statutes as recently made effective.

OLD TIME REMEDY DARKENS THE HAIR

Gives Color, Lustre to Faded and Gray Hair—Dandruff Quickly Removed.

For generations Sage and Sulphur have been used for hair and scalp troubles. Almost every one knows the value of such a combination for keeping the hair a good, even color, for curing dandruff, itching scalp and falling hair, and for promoting the growth of the hair. Years ago the only way to get a hair tonic of this kind was to make it in the home which was troublesome and not always satisfactory. Nowadays, almost any up-to-date druggist can supply his patrons with a ready-to-use product, skillfully prepared in perfectly equipped laboratories.

An ideal preparation of this sort is Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for scalp troubles and thin, weak hair that is losing its color or coming out. After using this remedy for a few days, you will notice the color gradually coming back, your scalp will feel better, the dandruff will soon be gone, and in less than a month's time there will be a wonderful difference in your hair.

Don't neglect your hair if it is full of dandruff, losing its color or coming out. Get a fifty-cent bottle of Wyeth's Sage and Sulphur from your druggist, and see what a few days' treatment will do for you. All druggists sell it under guarantee that the money will be refunded if the remedy is not exactly as represented. Agents, Gwin & Mays Drug Co., Ada, Okla.—adv.

Bob Deckert is soliciting membership for an athletic club which he proposes to organize. If the proposition is carried out as planned, a well equipped gymnasium will be installed with hot and cold shower baths. Mr. Deckert says it will require 100 substantial members to make it a success.

Ed Gwin says the little lamb that Mary had will have to take a back seat as a disturber of the country school, stating that a wild-eyed ram entered a school house in Pennsylvania one day last week, butted the teacher and pupils over the garden wall, and enthroned his ramship as monarch of the premises.

"THE MEN WITH THE TAPE"

REFUSED MARRIAGE LICENSE YOUNG COUPLE ELOPE

Love works in mysterious ways its wonders to perform. The sweet contemplation of connubial bliss nerves men and women to brave papa's ire and tempt the wrath of the law. And thusly speaking we have in mind an incident of recent occurrence, Saturday a loving lad and lass applied to Clerk Westbrook at the Court house for a permit to pair. In due and ancient form Mr. Westbrook handed over the affidavit as to the girl's age for the young man to sign and he balked.

Thus thwarted the young couple, downcast, dejected and despondent, went on their way back home, Sunday night, however, Cupid became unusually insistent and the boy stole the girl away from the parental roof and they left for parts unknown in search of a less cautious marriage license dispenser.

SHERLOCK HOLMES AND THE SIGN OF THE FOUR

HARRY BENHAM AND MIGNON ANDERSON

This two-reel film gives us a new kind of Sherlock Holmes—a younger and heavier built man than is usually seen in the part. But when the story gets into action with its weird oriental atmosphere you forget everything else. The story of the Agra treasure is pictured in an intensely fascinating manner. The one-legged man, the East Indian with his blow-pipe, the Sholtas, the Baker Street lodgings, the scenes in India and the various exciting episodes combine to make this a successful offering, a strong production of a famous narrative.

To iron economically you must not waste heat. Ironing with ordinary flat irons is very wasteful of heat; most of the heat goes up the kitchen chimney; a lot of it is wasted in charring the ironing pad and in scorching the clothes. Ironing with a

The Wonderful Music that Bursts Forth When the Stork Arrives.

That funny, little, brassy cry that echoes the arrival of the new baby is perhaps the

most cherished remembrance of our lives. And thousands of happy mothers owe their preservation to health and strength to Mother's Friend. This is an external remedy that is applied to the abdominal muscles. It relieves all the tension, prevents tenderness and pain, enables the muscles to expand gently and, when baby comes, the muscles relax naturally, the form is preserved without laceration or other accident.

You will find Mother's Friend on sale at almost any drug store, as it is one of the standard, reliable remedies that grandmothers everywhere have relied upon. With its daily use during the period of expectation, there is no weakness, no nausea, no morning sickness, no pain, distress or strain of any kind. Its influence is truly remarkable, as it penetrates the tissues and renders them pliant and easily governed by the demands of nature. You will be surprised at its wonderful effect and what a grateful relief it affords. Especially to young women Mother's Friend is one of the greatest of all helpful influences. You will find this wonderful remedy on sale at the store where you trade, or they will get it for you. It is prepared by Bradford Regulator Co., 136 Lamar Building, Atlanta, Ga. We have them for a very valuable book to expectant mothers.

USE LIQUOR TO QUENCH FIRE

Quanta at Coney Island Pour "Fire Water" on Burning Paper Bits and Save Structures.

New York—Wine and beer were substituted for water in extinguishing a fire that threatened for a time to sweep through Stauch's restaurant and pavilion, one of the largest buildings at Coney Island.

The fire was started by a lighted match thrown into a pile of confetti. Almost instantly the flames leaped to the ceiling, lighting the decorations. If it had not been for the prompt work of Captain Thomas H. Murphy of the Coney Island police station the fire might have resulted seriously.

Every year Barney Klobloch, manager for Mr. Stauch, gives his confetti dance. There was an unusually large attendance at the dance when the fire started. It was estimated that there were 3,000 persons in the hall. A balcony circles the dance hall and it was thronged when the fire started. At the several hundred tables below were assembled men and women in gay attire.

When the cry of fire was raised and the shaft of flame jumped toward the ceiling, everybody in the hall emptied the contents of their glasses on the fire.

When the downpour of wine came from the balcony Klobloch and many who were dancing were drenched.

PLANS CONCILIATION COURT

Cleveland Ready to Try Scheme to Reduce Costs of Small Suits—Mall to Aid.

Cleveland, O.—Judges of the municipal court, who have been considering ways and means of lowering the costs of court procedure, adopted a resolution urging the creation of a "conciliation court." This court will, it is understood, start its work January 1, 1913. All claims of less than \$50, garnishments, attachments, replevins and similar suits, will be heard in the "conciliation court," which will be presided over by a special judge, to be appointed by Chief Justice McCallum. The new court will attempt a settlement of the claims which are presented to it without the institution of formal proceedings. Costs of suits which will be considered in the court will be greatly decreased.

Service of subpoenas by registered mail was also discussed by the judges as a method of further lowering the cost of legal proceedings.

FINDS ANGLE WORM THINKS

Professor Yerkes of Harvard Convinced After Making Experiments on Crawlers.

Boston, Mass.—From a series of experiments conducted in his psychological laboratory Professor Yerkes of Harvard has become convinced that an angworm can think. Knowing that an angworm will always crawl out of a lighted place into a dark one, the professor put a worm into a glass dish in which were two dark holes. The right hand hole was an ordinary earth cavity. The left-hand one, however, contained an electric battery, the object of which was to give the worm a mild shock in case it entered.

After a few trials the worm learned its lesson and could be counted on to turn always to the right when it was put into the dish.

To Our Friends and Neighbors

You know us. You know we would not—that we could not afford to go back on our word. Nor can you afford to ignore this money-back-if-not-satisfied offer on this splendid laxative.

We honestly believe we have the best bowel remedy ever made—the most pleasant-to-take, most permanently beneficial laxative for relief from the miseries and dangers arising from constipation.

We wouldn't say this if we didn't believe it to be true. We wouldn't risk our reputation by making such statements did we not feel sure you would find them true.

Our faith is built both on the knowledge of what Rexall Orderlies are made of and on observation of very many severe cases in which they have proven their merit.

Try them at Our Risk

If they do not abundantly prove their merit with you also—if you are not entirely satisfied with them—we will refund your money—and we will do that on your mere say-so. We don't ask you to risk a penny. Isn't that fair?

Just let the bowels fail in properly doing their work—just let their action be delayed and incomplete and the entire system and every other organ suffers. Wastes that

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug stores. You can buy Rexall Orderlies only at The Rexall Stores.

Fanny Crosby Now 93

Bridgeport, Conn., March 24.—Fanny Crosby, the blind hymn writer, celebrated her ninety-third birthday anniversary today. She is in good health and continues to take an active interest in her work. During the past year she has made several trips to points in New York and New England to speak at public gatherings.

Miss Crosby is the author of more

than 6,000 hymns, many of which are known throughout the English-speaking world. The writer has been blind almost from her birth. In her youth she was a pupil in the New Institute for the Blind, one of her teachers being Grover Cleveland. She was afterwards a teacher in the institution. Miss Crosby was married in 1858 to Alexander Van Alstyne, who died in 1902. Of late years she has made her home with a niece in this city.

SEEKS LOST NIECE

New York Millionaire Offers Fortune in Search.

Miss Marian Ege, Relative of Wealthy Manufacturer, Disappears After Telling Uncle of Being Followed by a Strange Man.

New York.—With a declaration by Jacob Doll, millionaire manufacturer, that he will spend an unlimited amount of money to recover his fifteen-year-old niece, Marian Ege, who disappeared while walking near her home, police of New York and a score of private detective agencies began an exhaustive search of New York and neighboring cities for the missing heiress.

Following the girl's disappearance, the police began a quiet search, but were unable to unearth a single clue except that the girl had spoken to a friend of being followed on the street by a strange middle-aged man.

After two days of fruitless efforts by the New York police, Mr. Doll ordered into the search a number of private detectives and made the statement that he believes that his niece had been kidnapped.

The statements of Miss Ege's friend that the young woman had told her of being followed have been corroborated by Mr. Doll. The aged millionaire said that on numerous occasions reaching back over a period of several months his niece had remarked to him that a middle-aged man, whom the young woman could only hardly describe, had followed her while walking in the neighborhood of her home, and on one occasion had attempted to attract her attention.

Since the search was taken up Mr. Doll has kept in touch almost constantly with the police. As the search continues and no tangible trace of what has become of the young woman is discovered, the aged millionaire reiterates his determination that every power that can be controlled by his vast fortune will be turned toward finding the girl.

The police have carefully questioned many of the young woman's friends, but so far none has been able to give a hint that promises to clear up the mystery of Miss Ege's disappearance. Several possible explanations are being entertained by the police and every angle is being investigated.

It is thought that Miss Ege may have been taken ill and that she now lies, with her identity unknown, in some New York hospital. Friends of the young woman's family in neighboring cities are being communicated with in the hope of ascertaining if Miss Ege, without knowledge of her own family, had gone to visit them.

The main energies of the search, however, are centered on learning the worth of the clue offered by the young woman's previous statements that she had been followed by a stranger.

It is well known that Miss Ege was a favorite niece of her wealthy uncle, and it is hinted by police officials at work on the case that the young woman is being held for ransom by some individual or gang in New York City.

OLD MANTEL FOR JOHN D., JR.

Son of Magnate to Have One a Hundred Years Old in Hallway of His Mansion.

New York.—A century old marble mantelpiece from one of the oldest colonial houses still standing in New York city is to be the feature of the entrance hall in the mansion which John D. Rockefeller, Jr., is building on West Fifty-fourth street. The mantel is of French workmanship and was brought to America by the Schermerhorns, a noted New York family, to adorn their home overlooking the East river, near where the Rockefeller Institute for Medical Research now stands.

The house was later bought by Dewitt Clinton, then governor of New York state, and has been used as a day nursery since the Rockefellers acquired the property.

BUFFALO KILLS CAMERA MAN

French Court Sustains Widow's Claim for Compensation for Loss of Husband.

Paris.—An important point of law was settled this week when the widow of Paul Fiere, a photographer for cinematograph pictures, sued for compensation, her husband having been killed in Central Africa while taking pictures of big game shooting.

Fiere was sent to Africa a year ago, joined a German mission and went out shooting with Lieut. Graetz. While he was operating the camera Graetz was charged by a wounded buffalo, whereupon Fiere left the apparatus and went to the rescue of the officer, again wounding the buffalo, which then trampled him to death.

The widow was awarded an annual income of \$124 for herself and \$216 for her three children.

\$15,720 Is Paid for Bull

SAVED FROM TRIBE

Alaska Indian Maiden Is a Modern Pocahontas.

Chief's Daughter Marries Chinese Sailor or She Rescued From Death, and Now They Are Living in San Francisco.

Nashville.—Under date line of Washington, D. C., Mrs. L. M. Cheshire contributes the following unique story to the Nashville Banner:

"Pocahontas has been outdone by an Alaskan maiden. John Smith was only in danger of having his brains splattered over the surrounding real estate when Pocahontas rescued him with her love. The John Smith of Alaska was not only in danger of being killed, but of being eaten when the women in whose eyes he had found favor saved him.

"The Alaskan John Smith was not a titled explorer when he fell into the hands of savages, nor was his name John Smith. He was only a common yellow-skinned sea cook. His name is Ah Wing, and there is nothing attractive about him. He is about as home ly a mixture of Chinaman and Malay pirate as could be found in a day's walk. His Pocahontas answers to the name of Julie now, but nobody knows what her Indian name was. She is a long way of being Pocahontas' equal in beauty, and the Siwash features of generations were consolidated when her face was made.

Ah Wing some nine years ago was a cook in the employ of the navy department and was shipped north on the Jamestown. While on the Alaska station Wing's time expired, or he deserted—just which is not quite plain—and he shipped aboard a whaler. The whaler was wrecked and Wing was cast upon an inhospitable ice floe. Julie was the daughter of a chief of a tribe of Indians, and while hunting with her father discovered Ah Wing, who was as near dead from starvation, cold and exposure as it was possible for him to be and retain life.

For days and days Julie nursed him, and he finally recovered to find himself the object of a great deal of attention on the part of the Indians. They could speak no Chinese or English, and Wing had no comprehension of their dialect. He was at a loss to understand the solicitude with which they took in watching the accumulation of fat on his ribs. At last the horrid truth dawned upon him—at least he says so. They were going to barbecue and eat him.

He gave all up for lost, when he was inspired by the sight of Julie in tears. He made love to her. She comprehended and went to ask papa.

The old chief was fond of his daughter and could refuse her nothing. He issued an edict against barking Wing. The remainder of the village protested, and the chief was obliged to state why he desired the stranger's life preserved. The objections gave in and Wing and Julie were married in Indian style.

Finally he had a chance to escape. A boat's crew came in from a schooner to trade for skins. The cook was dead, and Wing begged them to take him away with them. Wing's father-in-law gave him leave of three months and sent Julie along to insure his return.

Wing's leave of absence has long since expired, but in the confines of civilization he has become his own master, and has no intention of returning to the land of his wife's people.

THIS PIG HUNTS RABBITS

Animal Runs With Dogs Now, but Owner Will Train It to Follow Trail Alone.

Dover, Del.—J. H. Lankford of Lewes, Md., a village just across the lower Delaware line, has a pig that hunts rabbits and joins in chases with its owner's dogs.

This pig is a thoroughbred of the Chester County White variety, and is known as Sir Granter. It first saw the light last August, and was allowed to run around the Lankford homestead with a pair of rabbit dogs, and it followed the dogs to the woods and hunted with them.

When the rabbit season opened and the rabbit dogs went on a hunt, the pig followed. Mr. Lankford tried to fasten up the animal, but in vain. Finally he gave the pig its liberty and permitted it to follow the dogs at will. Mr. Lankford says he will endeavor to train the pig so that it will hunt without dogs.

DOG-EATER IS A BLESSING

Flushing Man Wants Nescopek's Mysterious Monster—Many Canines Destroyed.

Nescopek, Pa.—An echo of the excitement here incident to the visits of a dog-eating animal has come in a telegram from Flushing, N. Y., an Auburndale man wanting the monster if Nescopek fails to appreciate the blessing it has received.

The dog-eater has been causing havoc among the canine tribe by nightly invasions, but as yet its real identity is a mystery. All it does is to destroy dogs.

That Nescopek has had a special dispensation of Providence in the coming of this terrifying dog-eater is the conclusion of the Long Island resident, and from whom Burgess Smith has received a letter. He asks that the dog-eater be shipped to his home town at once.

Governor Approves Bad Check Law.

Oklahoma City, Ok., March 21.—The bill by Reece of the House and Franklin and Graham of the Senate, which Gov. Cruce approved yesterday commonly known as the "Missouri bad check law," covers nearly every kind of cheat and fraud known to the legal profession. Its terms are believed to be broad enough to cover the selling of blue sky or any other transaction where deception is used. The law has been defined by the courts in its application to bad checks. It is in force in North Carolina, also, and reads:

"Every person who, with intent to cheat and defraud, shall obtain or attempt to obtain from any other person or persons, any money, property or valuable thing, by means or by use of any trick or deception, or false or fraudulent representation, or statement or pretence or by any other means or instrument or device commonly called the 'confidence game' or by means or by use of any false or bogus check or by any other written or printed or engraved instrument or spurious coin or metal shall be deemed guilty of a felony, and upon conviction, be punished by imprisonment in the penitentiary for a term not exceeding seven years."

The new act is effective June 15.

Summer School at State University.

Norman, Okla., March 22.—The summer school at the state university was inaugurated to answer the growing demand for the state to furnish educational advantages during the summer months for the teachers who have not the opportunity to attend school during the regular school year. The summer session bulletin containing definite information and announcements will be ready in the near future. The school is growing in popularity each year and has come to be one of the most important parts of the university. The teaching is done chiefly by members of the regular faculty. The University has secured this year special lecturers who are among America's most eminent educators. Each summer teachers from all parts of Oklahoma and the South west flock to Norman to take advantage of the short term and the enrollment is rapidly growing beyond the expectations at the time the summer school was planned. College credit is given for all courses.

True Love. Love is the purification of the heart from itself; it strengthens and ennobles the character, gives a higher motive and a nobler aim to every action of life, and makes both man and woman strong, noble, and courageous; and the power to love truly and devotedly is the noblest gift with which a human being can be endowed; but it is a sacred fire that must not be burnt to idols.
